

EoE CONNECT: Highlights from 2021.

Welcome to the first Newsletter 2022 of the EoE CONNECT registry, a communication service provided by EUREOS to the entire community of clinicians and researchers who collaborate in this European registry of clinical practice on EoE. These newsletters will provide up-to-date information on the operation of the registry, number of recruited patients, and newly added study sites. Throughout the different editions, we will offer advice to improve the quality of your data and information from ongoing studies. We will also inform you of all the new achievements obtained with our data.

Kind regards on behalf of the EUREOS Steering Committee,
Alfredo Lucendo

New study sites recently initiated

Hospital Sant Joan Despí Moisès Broggi (Barcelona)

Dr. Carlos Hernández-Ballesteros, Dr. Katherine Yelenia Bustamante Robles and Dr. Alba Juan

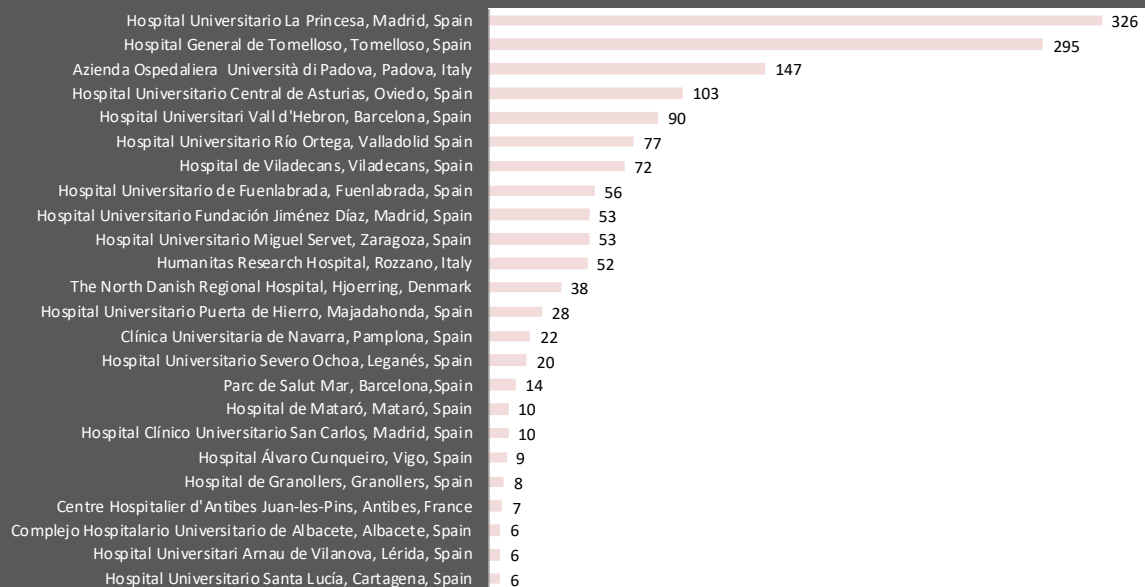

IRCCS Fondazione Policlinico San Matteo (Pavia)

Dr. Martina Votto, Dr. Marco Vincenzo Lenti and Dr. Carlo Maria Rossi

Maternal and Child Health Department, Sapienza University (Rome)

Dr. Salvatore Oliva, Proff. Salvatore Cucchiara

EoE CONNECT Recruitment Status as of 3 Jan 2022 (n=1,508)

Affiliation and COI form: Now added to the EoE CONNECT website

In order to have updated information for authorship of future publications, a new form has been incorporated to the EoE CONNECT website. In it we ask you to write your name EXACTLY as you want it to be shown in the publications, academic degree/s, affiliation details for all the institutions you want to show in the publication, as well as ORCID and ResearcherID identifiers. All contributors are invited to complete their data as soon as possible and to keep them updated, so that the authorship of the papers can be acknowledged at any time.

Additional User Info

Author signature name:

Preferred Email:

Institutional Email:

Academic Degree:

Affiliation Details (Please introduce all the records you need):

Name of the Institution	Service or Unit	Postal / ZIP code	City	Country
Hospital General de Tomelloso	Department of Gastroenterology	13700	Tomelloso	Spain
Instituto de Investigación Sanitaria de Castilla-La Mancha (IDISCAM)				Spain

ORCID ID: Yes

ORCID Value:

Researcher ID: Yes

Researcher Value:

Study protocol of EoE CONNECT published

The journal Therapeutic Advances in Gastroenterology (JCR Impact factor 4.409) has just published the EoE CONNECT methodological protocol. This article is an essential element to support future articles produced with our data, and provide all details on operational aspects of the registry, the variables that it collects and the preservation and security of the data. The publication in Open Access of this paper ensures its maximum dissemination and will contribute to enhancing the visibility of EoE CONNECT results.

Alfredo J. Lucendo et al., Ther Adv Gastroenterol 2022, Vol. 15: 1-16
